

Generating Evidence to Improve Value

LEVERAGING UR'S NATIONAL NETWORK AND EMR-BASED ANALYTICS

United Rheumatology offers a bundled suite of services to enable efficient, real-world clinical trials.

The below services are representative and are offered on a bundled basis. In addition, our Medical Policy Committee is also available to qualified researchers.

UR Site Targeting/Support

- Review protocols
- Provide description of RAC for membership
- Supply a list of interested UR members

Patient Eligibility/Rostering/Reporting

- Query EMR data based on patient inclusion/exclusion criteria
- Provide a list of patients to roster
- Green Flag eligible patients for recruitment and follow-up
- Provide single-source reporting of protocols and data fields

MD/Practice Engagement

- Educate and engage UR members
- Aid in source documentation

Data Curation and Delivery

- Integrate multi-EMR data streams
- Delivery of raw and curated data

UR Analytics

- Economic and clinical analyses

Questions?

For more information on any of United Rheumatology's programs and services, please contact Lynette Byrnes at 631.656.7199.
