Testimonials from UR Members

Our transition was seamless to the McKesson portal which is a very intuitive platform. The few questions we had were answered quickly and accurately by the McKesson support team. We are looking forward to learning more about their inventory software and implementation.

AARON LINDWALL, PRACTICE MANAGER

We are happy with the services we receive from McKesson. The customer service department is helpful and friendly, deliveries arrive on time as promised. It is also very helpful that invoices are received within a of week an order being place, this allows easy reconciliation of purchases which was not the case with our previous distributor.
